Trainee as a German and European Patent Attorney (chemistry)

To strengthen our team, we are looking for a chemist (m/f/d) to start training as a German and European Patent Attorney as well as a European Trademark and Design Attorney as soon as possible.

Your new task:

- Access to a career at the intersection of law and technology
- Advising and assisting national and international clients
- Assisting in the prosecution, enforcement and defense of intellectual property rights

Your qualifications:

- Successfully completed degree in chemistry
- Interest in broadening your knowledge and interdisciplinary work
- Ability to articulate complex issues
- Ability to work in a team, commitment and professional competence
- Very good English skills

Our offer:

- Many years of experience in the training of patent attorneys
- Contact with clients and participation in oral proceedings during training
- Friendly working environment and performance-based compensation
- Long-term cooperation up to partnership

Contacts

Apply now and start your career in a dynamic and forward-looking environment. Please send your application – preferably by e-mail – to Dr. Sebastian Heiroth at job@fe-pat.de.
